

Fee Reduction Program

Don't have health insurance?
Are your out-of-pocket costs too high?

Ask about our Sliding Fee Payment Plans

Our Sliding Fee Discount Program helps people and families pay less for health care based on their income and family size.

The sliding fee program is for you if you:

- do not have insurance,
- are between insurances, or
- have insurance but still have high out-of-pocket fees.

How does it work?

You will be placed in one of five categories based on your income. Each group has different discounted costs for medical, dental, and emotional wellness visits and for pharmacy services.

Examples of savings:

- Medical visits can cost as little as \$10 per visit
- Prescriptions can be as low as \$1 per medicine
- Therapy visits as low as \$10 per visit

There are no surprise bills.

We cover lab work fees for everyone in the program. If you get a bill from LabCorp, bring it to us—we'll cover it.

Find your costs in two simple steps!

1. Use the chart below to find your annual income and family size to determine your slide level (A, B1, B2, B3 or C).

Quality care at a cost you can afford!

How to apply?

- 1. Ask the receptionists or enrollment assisters for an application.**
The application will ask you to show proof of your income.
- 2. Turn in your proof within 14 days.**
If you do not share this information, you will get a bill for our regular prices.
- 3. Update your application every year or reapply anytime your income goes down.**
Each year we ask you to bring in new proof of income. If your income goes down during the year, you can reapply anytime to see if you qualify for more discounts.
